

LAKHIMPUR GIRLS' COLLEGE

Pioneering Higher Education for Women since 1972

From Principal's Desk

As the saying goes "Nothing succeeds like success". It is this success we have been striving for since the inception of this college in 1972 crossing many barriers and hurdles. We have been striving for quality education with value since the very beginning.

Education teaches the value of discipline among others- that the greatest rewards come not from instant gratification but from sustained effort and hard work. With the right education, both at home and at college one can learn how to be a better human being.

With this aim in view we have achieved academic brilliance and the college has scaled new heights in its infrastructural development. The hostel building with a capacity of 200 students and a huge dining hall, ADST computer lab, new class room (under construction), new courses such as Fashion Designing and Dietetics are certain achievements we can boast of.

This exceptional institution for women has taken every step forward for shaping the future of its students and also of the locality. It gives me immense pleasure to know that The Pioneer is coming out with its 5th issue which records its progress, prosperity and its various activities.

My best wishes are for the editor and all the members of the bulletin team for the grand success of this endeavour

Dr.M.Pandit
Principal
