 Principal

Vision leads to endeavour and endeavour culminates in success. This philosophy has kept the spirit of this seat of learning, i.e. Lakhimpur Girls' College going. One can see this manifested in the brilliant academic performance of the students as well as of the faculty members of this college through the years. Along with the academic brilliance the college has scaled new heights in its infrastructural development. The college can boast of the hostel building with a capacity of 220 students, extension of the new building and a DST Computer lab among others. New Courses such as Fashion Designing and Dietician (which is under process) have also been started. This prestigious institution has left no stone unturned in shaping the future of its students and also of this locality. It is heartening to know that LGC Bulletin is coming out with its 4th issue which records its progress, prosperity and its various activities. I wish the editor and all the members of the Bulletin team a grand success in their endeavour.
