SUMMARY OF FEEDBACK 2021-2022

The feedback was collected from five stakeholders for the session 2021-2022 via online mode. This session feedback was collected from 121 students, 53 parents, 92 alumni, 24 employers, and 32 teachers.

A total of 121 students responded to the feedback form for the session out of that 23.8% of students reported having good facilities in the college library. 17.3% of students reported about good computer facilities in the college.

It is remarkable that out of 53 parents, 60.4% rated the examination system adopted by the college as excellent, and 52.8% rated their relationship with the college as excellent.

A total of 92 alumni have submitted their feedback for the current session. 95.7% of alumni have reported that they have no grievances with the college. However, only 23.9% of alumni rated the office staff as excellent and 13% rated the hostel facility as excellent.

A total of 24 employers have provided feedback for the session. Where 56.5% of employers responded to have a satisfactory type of problem-solving ability among passed-out students. And 43.5% responded to having a highly satisfactory type of problem-solving ability.

Out of 32 teachers, 73.3% reported that they are getting a conducive environment in the college for teaching and research. Significantly, 50% of teachers have reported that they have the freedom to adapt new techniques/ strategies for the evaluation and assessment of students' academic progress. Remarkably, 65.2% of employers reported that our passed-out students have highly satisfactory relations with their subordinates at the workplace.

After analyzing the responses, the following suggestions were made for further action:

1. Books on the CBCS syllabus should be increased.
2. Improvement of students' toilets.
3. Auditorium for the college.
4. Canteen should be improved in terms of the quality of food

These suggestions received were forwarded to the authority for necessary action.
